Classic Trundle bed

Code: TDL005

PLEASE READ CAREFULLY & KEEP FOR FUTURE REFERENCE

AXE 9052023

Thank you for buying a Little Folks piece of furniture

Treated properly it should be a faithful servant for years - and we hope you get the same amount of pleasure from it. Before you do

- please take a few minutes to read these instructions
- we suggest you carefully unpack everything, lay it out on a clean, flat floor and identify everything on the parts list in these instructions. Do not throw away any packaging until you are sure you have all the parts.

If you have any problems assembling the product please call our customer services on 01985 300588 and we will try and help. If for any reason you wish to return the product, you must disassemble the product and pack in the original packaging.

Taking care of your product

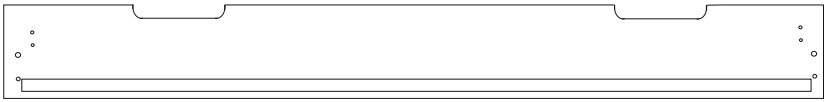

Your furniture should require no more than a regular dust off with a soft cloth. If the furniture is not painted then a superior wood polish can be used - but never use polishes containing silicone.
If necessary it can be cleaned with a damp cloth with a mild detergent solution - and then dried with a lint-free cloth. Never clean with abrasives or chemical cleaners.
Direct sunlight or heat from a radiator can stain, discolour warp or crack furniture.
We know furniture can be heavy but try not to drag furniture across the floor as this can damage it.

PRODUCT SAFETY

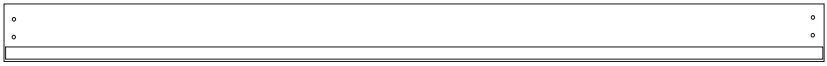

The recommended size of the mattress is 183cm x 76cm (6` x 2`6) with a maximum thickness of 15cm
Periodically check that all assembly fixings are tightened properly, care should be taken to ensure that no fittings are loose.
Always follow the manufacture`s instructions.
Please ensure that good ventilation is maintained within the room in order to keep humidity low and to prevent mould in and around the bed;
WARNING Do not place this child`s bed near heat sources, windows and other furniture.
WARNING Do not use this child`s bed if any part is broken, torn or missing.
WARNING Hole covers Not suitable for children under 36 months due to choking hazard.
The bed can be dismantled for storage or transportation.
Children are likely to play, bounce, jump and climb on beds, therefore the child`s bed should not be placed too close to other furniture or windows, blind cords, curtain pulls or other strings or cords and should be placed either tight to any wall or have a gap of 300mm between the wall and the side of the bed.
Additional or replacement parts should be obtained from Little Folks Furniture.

If you have any problems please do contact us for help on email customerservices@littlefolksfurniture.co.uk or phone our CUSTOMER SERVICES 01985 300588

Parts list

1x Front Panel

1x Rear Panel

2 x Sides

3 x bases

Fittings

4 x Dowels

10 x Fat Screws

2 x Large Cams

2 x Large Cam Pins

4 x Bolts 6cm

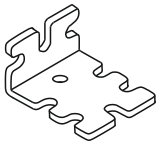

4 x Barrel Nuts

12 x Screws

2 x Brackets

4x Castors

4x Castor Pins

Tools Req

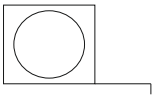

Screwdriver

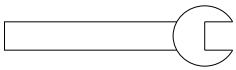

1 x Allen Key

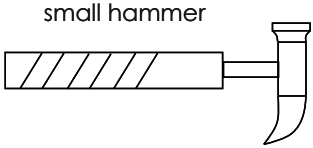

1 x Tape measure

Spanner (supplied)

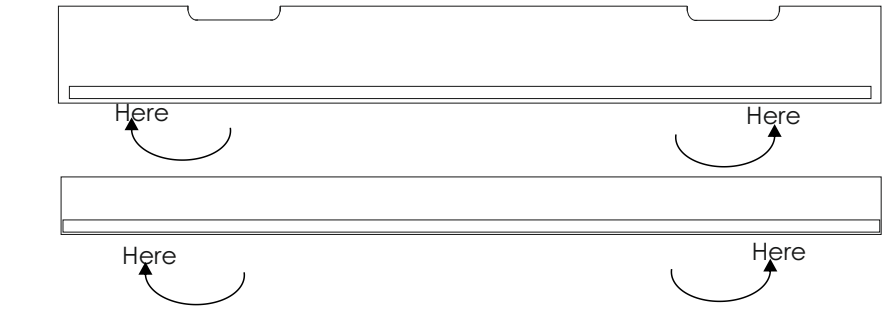

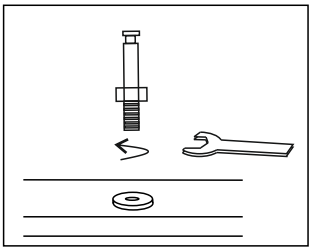

small hammer

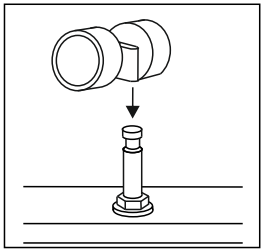

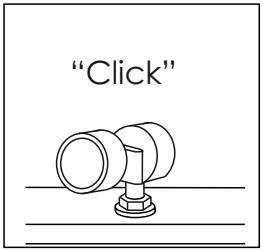

Fit the Castors (Front and rear panel)

4 x castor pins, 4 x castors and the spanner.
Screw the castor pins into the metal bushes that are fitted to the parts as shown. Once fully rotated into the bush, tighten with the spanner supplied. Now carefully push the wheeled castor onto the castor pin, you should hear a "click" when fully engaged.

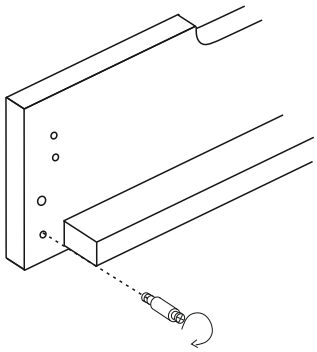

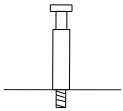

Fit the Front panel

2 x cam pins
Insert one cam pin into the smaller diameter hole on each side of the front panel, as shown.

Rotate Cam in up to shoulder

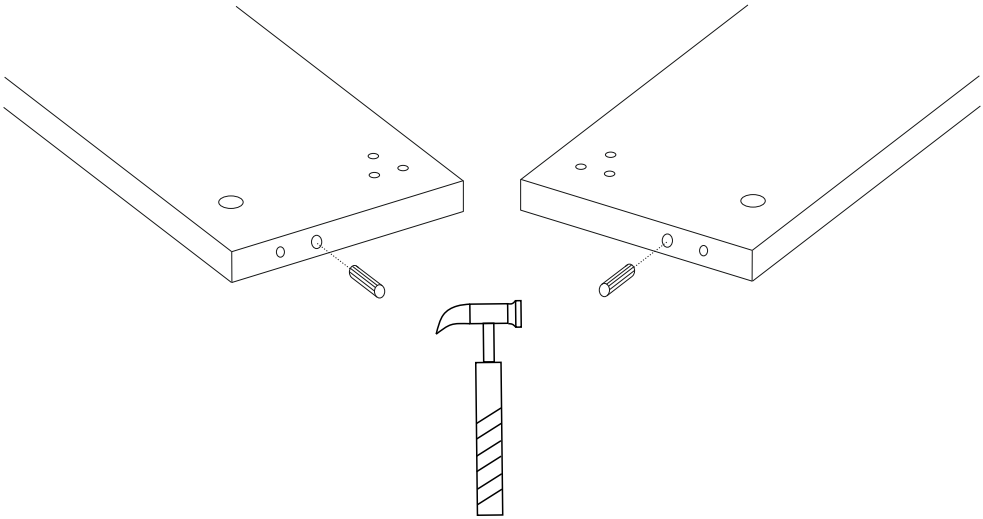

Fit the Sides

2 x wooden dowels

Insert one wooden dowel into the larger hole located at the edge of each trundle end, as shown.

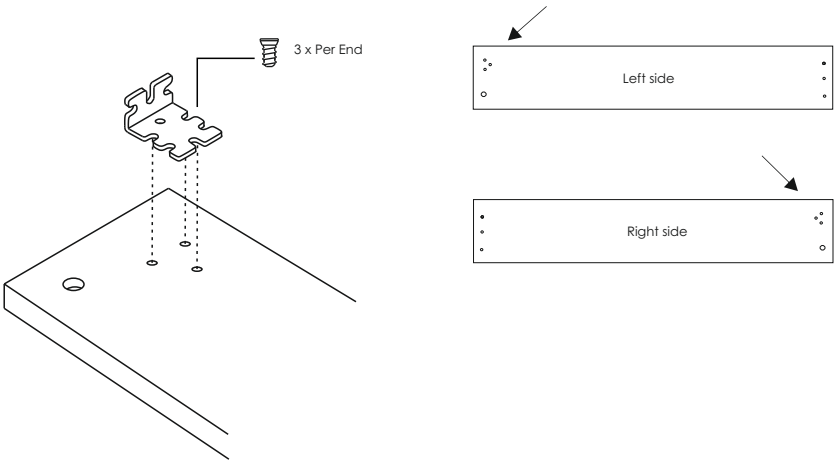

Tap the dowel until firmly positioned.

Fit the Sides

6 x Fat screws and 2 x brackets

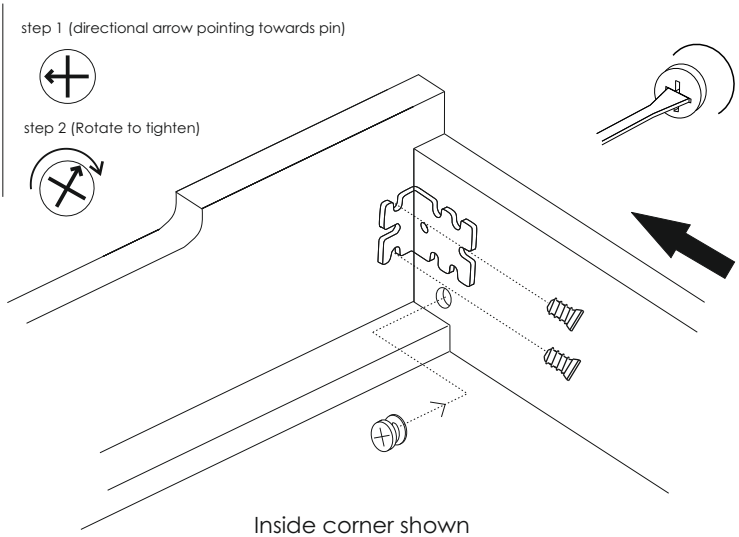

Screw the Brackets to the bed sides as shown.

Assemble the front and sides

4 x Fat screws and 2 x cams

Align each side piece with the front panel creating a corner. Now connect each corner assembly together ensuring that the dowel and cam pin locate into their opposite holes. Once pushed tight together, insert the cam and rotate to tighten. Now fit the euro screws into the remaining bracket holes on the front panel, tightening down the bracket securely.

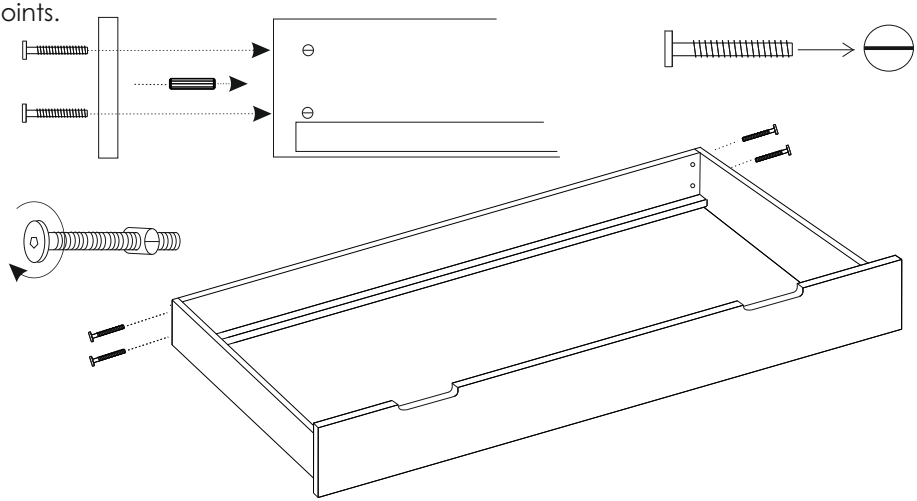

Inside corner shown

Fit the rear panel

2 x wooden dowels, 4 x 6cm bolts and 4 x barrel nuts

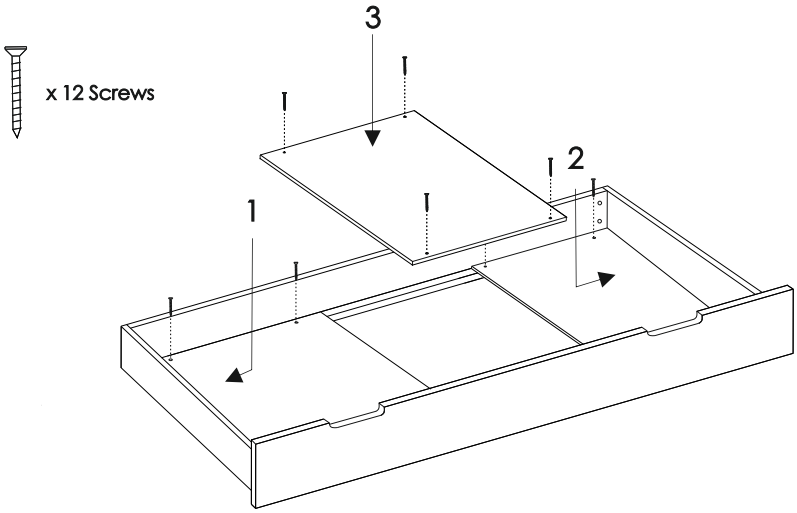

Insert a wooden dowel into the central holes at each end of the rear panel, gently hammer until firmly fitted. Slide the rear panel into place, as shown. Align the two bolt holes seen in each piece of the bed, insert the bolts and connect through the barrel nuts (barrel nuts are inserted into the two holes on the rear piece and the slots need to be horizontal to the bolt) . Once connected, tighten both corner joints.

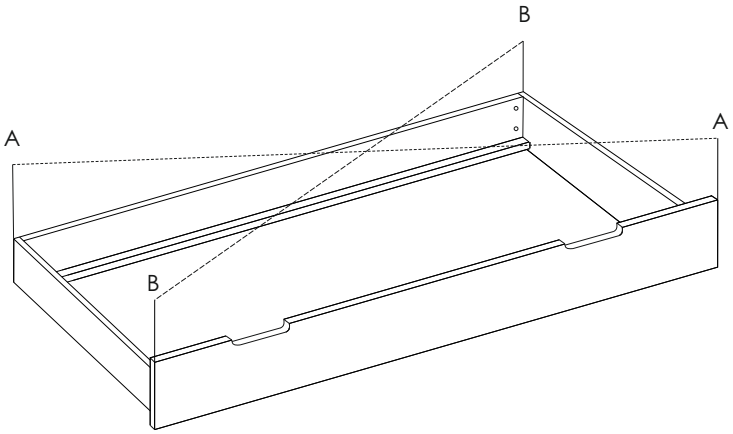

Fixing the base

12 x Wood screws

Drop the 3 x base boards into the bed, starting at each end with the centre panel being last to fit. These boards can be a little fiddly to fit. There should be an equal gap between all three boards. (roughly 5mm including two gaps at the bed end /sides).

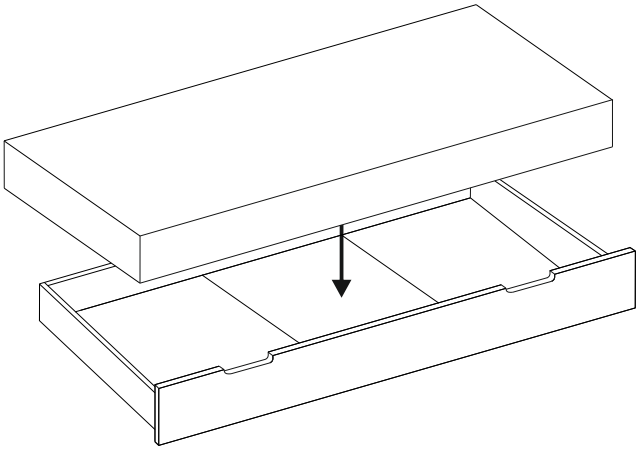

Check the squareness of the bed by measuring the diagonals (corner to corner) making sure both measurements are the same.

Now tighten down all the base boards to secure the bed ensuring that the bed remains parallel throughout this process.

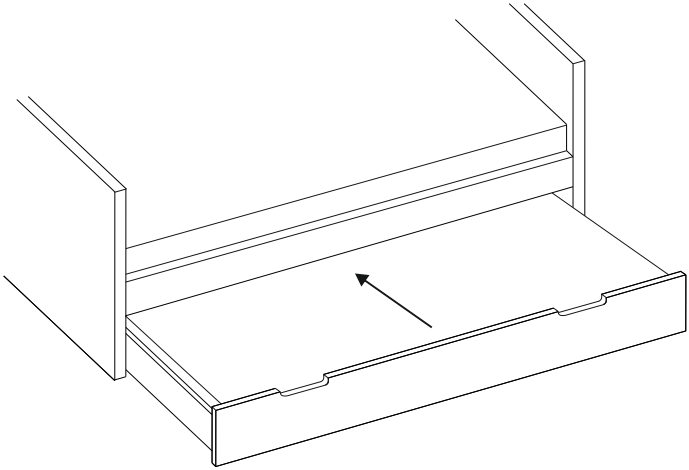

Fit the mattress (if applicable)

Gently place the mattress into the trundle bed frame.

Locate the trundle

Gently roll the trundle bed under the upper bed taking care when positioning, observing the gaps between the bed and trundle.

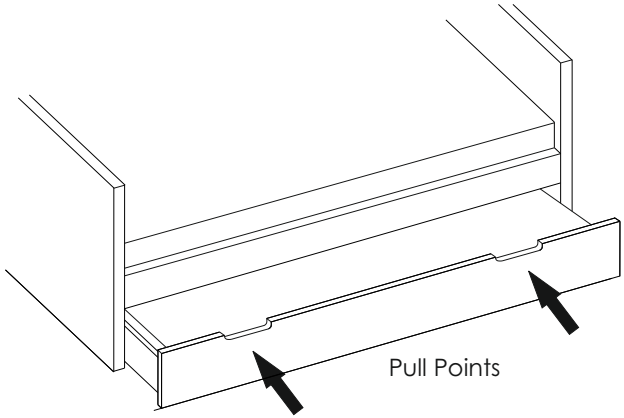

Please take a few minutes to look over the bed to ensure that the fittings are securely fastened and the product is stable.
Do Not overload the bed.
Do not stand or sit on the bed when it is being moved in case of injury or damage.
Do not overload the base when used as a storage drawer.

PRODUCT SAFETY

The recommended size of the mattress is 183cm x 76cm (6` x 2`6) with a maximum thickness of 15cm
Periodically check that all assembly fixings are tightened properly, care should be taken to ensure that no fittings are loose.

Children are likely to play, bounce, jump and climb on beds, therefore the child`s bed should not be placed too close to other furniture or windows, blind cords, curtain pulls or other strings or cords and should be placed either tight to any wall or have a gap of 300mm between the wall and the side of the bed.
Additional or replacement parts should be obtained from Little Folks Furniture.

Using the bed

The trundle bed is made to a size that fits beneath an upper bed with its access along the long side and rolls under the mattress side rail. We recommend that the two scoop handles are used for handles, gripping the trundle front roughly a shoulders width apart and pulling perpendicular to the main bed. Care should be taken not to trap fingers or limbs between the trundle bed and the main bed frame when moving the trundle bed.
The trundle bed is designed to be used at ground level and with all four castor wheels in contact with the floor. The four castors are multi-directional which means you can move the bed in all directions, taking care not to twist or impact the bed during movement.

Using the trundle bed for sleeping.

The trundle bed may move in use if positioned on flooring like LVT, solid wood, or smooth surfaces. Castor cups may help to secure / steady the bed, gently place one cup under each castor wheel.
Castor cups vary depending on the flooring type used and can be purchased from good hardware stores.
